

Request for Department of Administration Exception to Furlough Implementation

Executive branch agencies must receive prior approval from Department of Administration Division of Human Resource Management and the Budget Division for an exception to the implementation of furloughs in accordance with the emergency regulation adopted on July 1, 2013. This includes requesting approval of paying overtime and added regular pay in the same pay period as unpaid furlough. The *Request for Department of Administration Exception to Furlough Implementation* form must be used to request this exception and approved by both the Division of Human Resource Management and the Budget Division. The completed form should be routed to the Division of Human Resource Management. Once Division of Human Resource Management completes their review, they will route all approved forms to the Budget Division.

Agencies should allow 7-10 business days for a final determination by Division of Human Resource Management and the Budget Division. The Division of Human Resource Management reviews requests to ensure agencies are in compliance with personnel rules and regulations established by Nevada Revised Statutes and/or the Fair Labor Standards Act. They also verify the request is technically correct. The Budget Division reviews the budgetary impact of the request.

Below is a description of the information required in each section of the form.
